

PHONE2ACTION WORKSHOP:

Integrating Data from the Web Into Your App (Java, Python, or NodeJS)

You'll need:

- A macOS, Windows, or Linux computer connected to the internet
- Postman (download at getpostman.com/downloads/)
- Java 7+ or Python 3+ or NodeJS 4+ installed and running
- A cell phone to activate your Phone2Action API Key (optional)

You'll learn:

- How data is sent over the internet via HTTP
- How to make your own HTTP API request with Postman and Java, Python, or NodeJS
- How to access a private API with API keys and HTTP headers
- Tips and tricks for displaying the data you've gotten from APIs in a web app

Info:

- Saturday at 4:30 pm
- Code samples and demos at github.com/phone2action/hacktj-examples
- Visit the #phone2action channel on HackTJ's Slack (hacktj2019.slack.com) for questions

About the Civic Technology, Politics and Digital Advocacy Prize:

In its fourth year, the Civic Technology, Politics and Digital Advocacy Prize is awarded to the team with the most innovative way to use technology to improve civic engagement, advocacy and educate people on political matters. Extra consideration is given to teams using our API. Technology created at HackTJ was featured at Phone2Action's booth at the 2017 Consumer Electronic Show (CES) in Las Vegas, NV.

Each member of the winning team will receive a \$200 Amazon gift card, a wireless speaker and a paid summer internship with Phone2Action. Each member of the runner up team will receive \$100 Amazon gift card, a bluetooth speaker and a paid summer internship with Phone2Action.
